

KLT Doctrine - Site / DOI / arXiv Deployment Handoff RU/EN v8.6

Ivan Borisovich Kurpishev / Иван Борисович Курпишев
Independent Researcher, Kaliningrad, me@kurpishev.ru
2026

1. Editorial status / Редакционный статус

This protocol fixes the operational deployment handoff after v8.5. It creates upload-ready route tables, metadata drafts, public/private controls and post-upload checksum sheets. It does not state that external upload has already occurred.

2. Source law / Закон источников

Core chain: Object -> C@C -> Rep(R,I,U;D) -> lambda -> CGI -> Status -> RBD. Truth-status requires Dom and D; otherwise the status remains gap, candidate, hypothesis, draft, source or control.

3. Input package continuity

SHA256 continuity

object	declared_sha256	actual_sha256	status
v8.4 publication transport ZIP	05ec944f2be502ef7f78e04a dccad27fc042796f70e77bf54 53b92f64f329b6d	05ec944f2be502ef7f78e04a dccad27fc042796f70e77bf54 53b92f64f329b6d	PASS
v8.5 final audit ZIP	cfa406b97071ee7fd2467ade a87c6c7ba49a42ff315ea446 96f778c581b95f42	cfa406b97071ee7fd2467ade a87c6c7ba49a42ff315ea446 96f778c581b95f42	PASS

4. Final deployment route table

route_id	destination	source_file	publication_status	public_private
SITE-RU-INDEX	kurpishev.com / RU doctrine page	site_upload/ru/ landing_page_text_ru_ v8_6.md	READY_FOR_MANUAL_UPLOAD	PUBLIC
SITE-EN-INDEX	kurpishev.com / EN doctrine page	site_upload/en/ landing_page_text_en_ v8_6.md	READY_FOR_MANUAL_UPLOAD	PUBLIC
SITE-DOWNLOAD-ZIP	kurpishev.com / download archive	payload_public_transport/ KLT_DOCTRINE_PUBLICATION_TRANSPORT_RU_EN_v8_4_PACKAGE.zip	READY_FOR_MANUAL_UPLOAD	PUBLIC
SITE-AUDIT-PDF	kurpishev.com / audit certificate	audit_source/ KLT_DOCTRINE_FINAL_MASTER_TRANSPORT_AUDIT_RU_EN_v8_5.pdf	READY_FOR_MANUAL_UPLOAD	PUBLIC
DOI-DEPOSIT-ZIP	DOI repository deposit draft	payload_public_transport/ KLT_DOCTRINE_PUBLICATION_TRANSPORT_RU_EN_v8_4_PACKAGE.zip	READY_FOR_REPOSITORY_FORM	PUBLIC
DOI-DEPOSIT-	DOI repository	doi_deposit/	READY_FOR_REPOSITORY	PUBLIC

METADATA	metadata form	DOI_DEPOSIT_METADATA_RU_EN_v8_6.json	RY_FORM	
ARXIV-HANDOFF	arXiv/source handoff candidate	arxiv_handoff/ARXIV_SOURCE_HANDOFF_RU_EN_v8_6.md	READY_FOR_EDITORIAL_SELECTION	PUBLIC
PRIVATE-CONTROL	private control archive	source_controls/private_control_notice_ru_en_v8_6.md	CONTROL_ONLY_NOT_PUBLIC_UPLOAD	PRIVATE_CONTROL

5. Public/private confirmation

object	classification	decision	condition
v8.4 publication transport ZIP	PUBLIC	can be uploaded as primary archive	no private-control materials added
v8.5 audit PDF/DOCX	PUBLIC	can be uploaded as audit certificate	hashes pass
landing page RU/EN texts	PUBLIC	can be posted to site	manual visual review
private control notice	PRIVATE_CONTROL	keep in control archive, not public route	used for operator checklist only
source controls from previous CSVs	CONTROL	keep inside v8.6 deployment package	not direct public page content
RosPatent/FIPS materials	SEPARATE_LEGAL_TRACK	not part of site/DOI/arXiv public deployment unless separately approved	legal registration contour remains distinct

6. Post-upload verification

The package intentionally leaves remote checksum values as PENDING_EXTERNAL_UPLOAD. After manual upload, every public artifact must be downloaded from its public route and compared with the expected SHA256 values in the verification CSV.

check_id	route_id	source_file	expected_sha256	result

7. Deployment decision

Decision: READY-FOR-MANUAL-DEPLOYMENT-CHECKPOINT. Any external correction after upload must be issued as a new explicit control point and not as a silent replacement.
